Subject: Many thanks

Dear Niki,

Dear Nikos,

Our trip from Athens to Lyon was good and we arrived in good condition. The weather here was not so good, the sun beeing rare and the temperature about 12.

I (and my friends and colleagues) have really appreciated your excellent work during the congress. Not only your work but also your kindness.

It was great to meet you and to work with you. The congress was a success mainly due to your efficiency and I thank you very much for your help.

Many thanks again and warm regards,
Gérard Chavancy
