WELCOME MESSAGE

Dear colleagues and friends,

It is our pleasure to invite you to join the **7th Europe Congress** of the International Association for Hydro-environment Engineering and Research (IAHR) entitled **INNOVATIVE WATER MANAGEMENT IN A CHANGING CLIMATE** that will take place in Athens, Greece, from the **7th until the 9th of September 2022**.

Greece plays a significant role in Europe in water works. From very ancient times, the Greeks developed hydraulic technologies and structures; many of them are found in Athens, including the Peisistratean and Hadrian Aqueducts that are in operation until today and are considered as key milestones in the history of hydraulic works.

In a timeline exceeding eight decades, the IAHR Congresses have successfully inspired, educated, and collaborated with the world's leading experts in a quest to help address some of the world's most crucial issues concerning water environment engineering.

Through the 7th Europe Congress that is entitled "Innovative Water Management in a Changing Climate", we aim to provide a platform to renown professionals, researchers, scientists, and engineers, to interact and explore innovative ways to face the challenges on hydro-environmental sciences and their practical applications, share their research and practical experiences, advance the education of younger generations, and challenge and be challenged in lively debates and conversations to ultimately benefit the wellbeing of our world.

With the interest and concern in matters of water and climate change rising in a global scale, we are especially proud to allow younger researchers and scientists to submit and show their innovative work, introducing new ideas to the world in all fields related to hydraulic research and its practical applications.

Your active participation will undoubtedly contribute to a successful and productive IAHR congress.

Looking forward to welcoming you in Athens!

With warm regards,

Prof. Anastasios I. Stamou
Congress Chair

Prof. Vassilios Tsihrintzis

Organized by

The International Association for Hydro-Environment Engineering and Research (IAHR).
IAHR was founded in 1935, is a worldwide independent organization of engineers and water specialists working in fields related to the hydro-environmental sciences and their practical application. Activities range from river and maritime hydraulics to water resources development and eco-hydraulics, through to ice engineering, hydro-informatics and continuing education and training. IAHR stimulates and promotes both research and its application and by doing so strives to contribute to sustainable development, the optimization of world water resources management and industrial flow processes.

IAHR accomplishes its goals through a wide variety of member activities including working groups, its research agenda, congresses, specialty conferences, workshops and short courses, journals, monographs and proceedings, involvement in international programs such as UNESCO, WMO, IDNDR, GWP, ICSU, and through co-operation with other water-related international organizations.

BECOME A SPONSOR AT THE 7TH IAHR EUROPE CONGRESS

The congress scientific program, which is expected to cover a wide variety of topics at the forefront of science, will bring together experts from all disciplines related to this field, offering a highly educational experience, as well as providing ample networking and experience exchange opportunities to its delegates.

Sponsoring the 7th IAHR Europe Congress will provide great market exposure opportunities. Moreover, it is a fantastic chance to meet and interact with the top experts in the Hydro-Environment Engineering and Research related fields.

Benefits of Sponsoring the 7th IAHR Europe Congress

- ✓ **Meeting your target audience face-to-face**
- ✓ **Direct selling to potential buyers**
- ✓ **Building prospect databases**
- ✓ **Building relationships with existing customers**
- ✓ **Demonstrating and launching new products / services**
- ✓ **Building brand awareness**
- ✓ **Positioning your company as a market leader**
- ✓ **Targeting, testing & developing new markets**
